ABH ATF DX III

ABH DEXRON III is engineered to provide comprehensive protection and exceptional performance for the latest generations of automatic transmissions. This enhanced "Super Performance" formula features superior thermal stability and oxidation resistance, ensuring a longer life for both the fluid and vital transmission components. With optimized friction properties, DEXRON III delivers ultra-smooth and precise gear shifts while eliminating vibrations, providing a comfortable and quiet driving experience. It also ensures outstanding protection against wear, rust, and corrosion for all metal and rubber parts, making it the ideal choice for vehicles requiring high-performance specifications and maximum reliability

TEST	Method	Result	Unit
Appearance	ASTM D 1524	Clear and Bright	
Color	ASTM D 1500	6
