ABH BRAKE FLUID DOT 4

ABH DOT 4 Brake Fluid is the core of safety for your vehicle's braking system. Formulated with a "Special High Performance Formula," it is designed to withstand extreme temperatures generated by intense braking, preventing "vapor lock" and ensuring an immediate, precise response under all driving conditions. Its advanced chemical properties provide superior protection against corrosion and rust for both metal and rubber components within the brake circuit, extending system life and ensuring driving safety. Ideal for modern vehicles and ABS-equipped systems, it offers exceptional chemical stability and a high boiling point that exceeds standard requirements.

Properties	Test Method	Typical Value
Appearance	Observation	Straw to Amber Liquid
Specific Gravity @ 15°C	ASTM D1122	1.073
Viscosity @ -40°C, cSt	ASTM D445	1,650
Equilibrium Reflux Boiling Point, °C	ASTM D1120	253
Wet Equilibrium Reflux Boiling Point, °C	ASTM D1120	157
pH Value (50% EtOH)	ASTM D1287	8.8
