ABH HydroPro 68

ABH HYDRAULIC CH-68 is engineered to be the primary choice for hydraulic systems operating under heavy-duty conditions that demand the highest protection standards. This oil features excellent anti-wear and anti-oxidation properties, ensuring a longer lifespan for hydraulic pumps and valves in construction, agricultural, and industrial machinery. With a viscosity grade of ISO VG 68, it provides superior stability and fast system response under high pressure, alongside excellent resistance to foaming and deposit formation. This maintains machinery efficiency and reduces maintenance downtime.

TEST	Method	Result	Unit
Appearance	ASTM D 1524	Clear and Bright	
Color	ASTM D 1500	1.8	
SP.gr@15C	ASTM D 1298	0.880	
Flash Point	ASTM D 92	215	C.
Pour Point	ASTM D 97	-15	C.
Viscosity @40C	ASTM D 445	67	Cst
